

Laurie Alsobrook's Workshops

NGFDA Fall Festival – November 19-21

Front Porch Favorites	Level 2	Inspired by songs of the "Singing Family of the Cumberlands," this workshop offers fun tunes that last for generations!
Keep on Truckin'	Level 2	Actually, NOT a Grateful Dead tribute workshop...these songs focus on traveling. You will have a chance to practice strumming as well as the chord-melody technique as you develop smoothness in playing.
Two songs in one!	Level 2	What happens when we play two totally different tunes at the same time? Come and watch the magic happen!
You Rock!	Level 2	This promises to be a class that really rocks - fiddle tunes, a hymn, and even a waltz will have you rockin'!
All Girl Review!	Level 2	From fiddle tunes to classical, this will be a Gal-a- palooza of tunes about girls! Join me for fun tunes, like Julianne Johnson and Charleston Gals...and more! These tunes will teach techniques to smooth out your playing; plus, it will be fun!
May I have this Dance?	Level 2	Channeling Lawrence Welk's, "a-vun and a-two," some of my favorite waltzes will be presented in this class, as we use a chord melody style to smooth out our waltzing.
Round and Round and Round and...	Level 2	Virtual rounds? Yes! This class will "round out" your dulcimer repertoire as we discover the pleasure that playing in such lovely harmony brings to us. Listed as an Advanced Beginner class, all levels would enjoy this session :-)
Taize	Level 3	Not familiar with Taize worship music? Originally from a monastery in France, these peaceful, meditative songs can enhance any worship service OR simply be enjoyed at any time. Short songs repeated again and again, give it a meditative character. Level: Intermediate
